

2nd International Conference on Signal, Automatic control and Telecommunications

June 12-13, 2019

Caen, Normandy, France

<https://icsat-2019.sciencesconf.org/>

Invitation

The organizing committee of ICSAT'2019 is very happy to welcome you in Caen, France, to meet renowned scholars and practitioners from all over the world. The city of Caen is the capital of Normandy, one of the most attractive European regions due to its historical and cultural richness and natural beauty.

The 2nd edition of ICSAT will be held Wednesday and Thursday, June 12-13, 2019 at ENSICAEN.

Aims and scope

ICSAT has the goal of bringing together researchers and practitioners interested in Signal processing, Automatic control and Telecommunications, providing them with a forum for presentation of recent developments and assessment of the most promising trends for future research.

We warmly invite you to participate in this event by submitting your work in all aspects of this field from underlying technologies to applications, and from theory to practice. We particularly encourage submissions from students. The technical program will consist in invited talks and oral sessions.

Submission and Topics of interest

Authors are invited to submit papers of not more than six pages, in english or french, in 2-column format including results, figures and references. Papers will be accepted only by electronic submission, only pdf files, at submission web-site.

The scope of the conference will cover, but is not limited to:

- Signal Processing and its applications
- Control and Observation
- System Identification
- Telecommunications
